2014 TECHNICAL SEMINAR

Mark your calendars, the 2014 Technical Seminar event is set! We have reserved the Hawaii Prince Hotel Waikiki for May 16, 2014. The seminar theme is Designing Buildings in the Hot and Humid Climates. We are planning a great lineup of interesting topics and speakers for you, including industry experts and the current Society President.

Topic / Presenter:

Shaping the Next: The President’s vision for ASHRAE, setting our goals to address the increasing demands of our changing world – William P. Bahnfleth, PH.D., P.E., 2013 - 2014 ASHRAE President

Designing Buildings in the Hot and Humid Climates: The science of humidity control in buildings – Raymond E. Patenaude, P.E., Vice President, The Holmes Agency, Inc.

Building Envelope Commissioning: Commissioning buildings to pass the government mandated building envelope air tightness test – Mitchell Johnson, Owner of Pacific SBS

Mold Issues in Hawaii, Lessons Learned: The “Mold Coordinator” shares his experiences in dealing with the infamous, undesired visitor – Michael Langer P.E., Eng Supervisor, NAVFAC

The seminar will start at 7:30 am and end at 4:00 pm in the Haleakala/Kilauea Banquet room. Lunch will be buffet style at the hotel’s Prince Court Buffet. If you haven’t tried this buffet yet, we highly recommend it. The Prince Court Buffet is one of the favorites in town.

The technical seminar will be followed by a cocktail reception in the Marina Front Lounge (Hawaii Prince 1st floor), which should give you the opportunity to mingle with the presenters, ASHRAE members, and guests. This “Happy Hours” Reception will start at 4:00 pm and end at 6:00 pm at Marina Front.

We hope that all of you will come out to join us and support the ASHRAE technical seminar!

Hawaii Prince Hotel Waikiki

The standard for sophistication in Waikiki, this ocean-front property features every room with panoramic views, the finest island cuisine, and a unique 27-hole championship golf course.
